

HD Supply Courses Available in Vision

Streamlined Access to the Leading Multifamily Learning & Management Tools

HD Supply: A.O. Smith - Water Heaters

This course covers how to conduct electrical measurements on both electrical and gas water heaters, and provides a review of the residential gas and electric water heater, plus troubleshooting, and electronic/mechanical control.

🕒 2 hours 💬 ENG

HD Supply: Conservation

Helpful general maintenance techniques to help conserve power and water consumption in your community.

🕒 1 hour 💬 ENG, ESP

HD Supply: EPA Section 608

Just in time for summer, this course on EPA certification is designed for air conditioning and refrigerant technicians who must be certified in order to comply with Section 608 of the Federal Clean Air Act. Please note that this is **NOT** a certification.

🕒 2 hours 💬 ENG

HD Supply: Eyes and Hands Safety

Are you ever unsure of what type of eye or hand PPE you should be wearing? This course will help you with those questions. You will learn about the different types of eye protection to choose from, eye injury hazards and which types of eye protection to use, safety tips for using proper eye PPE, different types of gloves to choose from for hand protection, how gloves are tested and rated, and safety tips for using the right type of gloves.

🕒 30 minutes 💬 ENG, ESP

HD Supply: Fire Extinguisher Safety

Fire is one of the top causes of injuries and losses in residential buildings. Having knowledge of the different types of fires and fire extinguishers can be the difference between not only losing or saving property, but sometimes, saving lives. In this course you will learn about fuel classifications and the types of fire they cause, the different types of fire extinguishers and when to use each one, how to properly use a fire extinguisher, guidelines for fighting fires, and safety tips when working with fire.

🕒 30 minutes 💬 ENG, ESP

HD Supply: Flooring Care

An introduction to flooring care, covering types of flooring, the four-step floor care system, equipment and tools needed for flooring care, and safety procedures.

🕒 1 hour

🗨️ ENG

HD Supply: Kitchen Appliance Repair Modern

An overview of how refrigerators, dishwashers, and gas and electric ranges work. This course also teaches how to diagnose and fix problems associated with common service requests.

🕒 1 hour

🗨️ ENG, ESP

HD Supply: Ladder Safety

Basic ladder safety is covered in this course, including how to choose a ladder, set up a ladder, and safely climb a ladder. This course is a good refresher after taking Ladder Safety 1: Best Practices and Ladder Safety 2: Choosing a Ladder.

🕒 15 minutes

🗨️ ENG, ESP

HD Supply: Lifting Safety

This quick, basic course reviews common injuries associated with lifting, and strategies to help you lift more easily and safely. For those who have purchased the Vision 2020 Safety Series, this course is a good refresher after taking Safety Series: Proper Lifting and Moving.

If you have not already purchased our Safety Series and would like to do so, please let your account manager know!

🕒 15 minutes

🗨️ ENG, ESP

HD Supply: Make Ready Maintenance

Most appropriate for maintenance staff, this procedure-focused course is designed specifically to provide an overview of the discrete steps necessary for the make ready process, the punch out process, common repairs to complete before a new resident moves in, and preventive maintenance and conservation strategies.

Note: This course may also serve as a maintenance refresher for non-maintenance personnel who have taken one course in Essentials: Preparing a Perfect Market Ready Apartment.

🕒 1 hour

🗨️ ENG, ESP

HD Supply: R-410A Introduction and Overview

Specific answers to questions about the change from R-22 to R-410A in all air conditioning systems that began January 1, 2010—including how the new refrigerant will be serviced and how to integrate these systems onto existing properties.

🕒 1 hour

🗨️ ENG, ESP

HD Supply: Swimming Pool Maintenance

This course provides an overview of basic pool maintenance, including mechanical and chemical aspects of keeping a pool safe and clean. While ***not*** a replacement for Certified Pool Operator training (nor carrying national recognition), this course may help you in preparing for the CPO test.
